

RUTUJA VAIDYA

Pune, Maharashtra, India | +91-9322609596 | vaidyarutuja14@gmail.com
LinkedIn | GitHub

Professional Summary

Software Developer and M.Tech student in Artificial Intelligence in Signal Processing at COEP Technological University with a background in Computer Engineering. Hands-on experience in Python, Java, SQL, backend development, REST APIs, database-driven applications, debugging, and AI-powered software systems. Experienced in developing practical applications, integrating frontend and backend components, and working with structured data. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, problem solving, and software development.

Education

COEP Technological University

Master of Technology in Artificial Intelligence in Signal Processing

Pune, Maharashtra

2026 – Present

Dr. Babasaheb Ambedkar Technological University

Bachelor of Technology in Computer Engineering | CGPA: 9.00/10

Lonere, Maharashtra

2022 – 2026

Maharashtra State Board

Higher Secondary Certificate | 59.45%

Parbhani, Maharashtra

2022

Technical Skills

Programming Languages: Python, Java, SQL, JavaScript

Software Development: Object-Oriented Programming, Data Structures & Algorithms, Problem Solving, Debugging, Algorithmic Thinking

Backend & APIs: FastAPI, Flask, REST API Development, Backend Application Development

Databases: MySQL, PostgreSQL, MongoDB

AI / Machine Learning: Machine Learning, Scikit-learn, XGBoost, BERT, Natural Language Processing, Computer Vision

Libraries: NumPy, Pandas, Matplotlib, OpenCV

Developer Tools: Git, GitHub, VS Code, PyCharm, Jupyter Notebook

Projects

PolicyPulse — AI-Powered Sentiment Analysis Platform

Python, BERT, Flask, NLP, Data Visualization

- Developed an AI-powered application to classify public opinions and policy-related textual data using a BERT-based NLP pipeline.
- Processed and analyzed 10,000+ data points to identify sentiment patterns and generate analytical insights.
- Integrated machine learning outputs with a Flask-based application for presenting results through an interactive interface.
- Implemented visualizations for sentiment trends, topic distributions, and word-frequency patterns.

Wildlife Population Intelligence System

Python, FastAPI, PostgreSQL, Machine Learning

- Contributing to an AI-powered wildlife monitoring and biodiversity intelligence system.
- Working on Python-based application workflows, database schema design, and machine-learning-oriented development.
- Developing structured data processing workflows to support wildlife population monitoring and biodiversity analysis.

Civici Platform — Civic Issue Reporting Application

HTML, CSS, JavaScript, Web Development

- Co-developed a web-based platform for submitting and tracking civic complaints with structured data handling.
- Built user-facing workflows for uploading and previewing image, video, audio, and document evidence.
- Worked on frontend-backend integration and responsive application workflows for desktop and mobile users.

Internship

Infosys Springboard

Artificial Intelligence Intern

Remote

Jun 2026 – Present

- Selected for the Infosys Springboard Virtual Internship 7.0 and contributing to an AI-powered Wildlife Population Intelligence System.
- Working with Python, FastAPI, PostgreSQL, database schema design, and machine-learning-oriented application workflows.
- Contributing to system architecture, structured data processing, and development of practical intelligent systems.
- Collaborating with mentors and team members to develop software solutions for wildlife monitoring and biodiversity analysis.

Krupasindhu Softwares and Advertisement Pvt. Ltd.

Full Stack Java Developer Intern

Nanded, Maharashtra

Aug 2025 – Sep 2025

- Worked on full-stack Java development involving frontend interfaces, backend application logic, and SQL databases.
- Developed responsive web interfaces using HTML, CSS, and JavaScript and integrated them with backend services.
- Worked on debugging, frontend–backend integration, and practical software development workflows.

Dream Webies Pvt. Ltd.*Python Development Intern***Nanded, Maharashtra***Aug 2023 – Sep 2023*

- Developed Python-based scripts for data processing, automation, and application-related tasks.
- Worked with Python, SQL, debugging, and problem solving in practical development scenarios.
- Gained hands-on experience writing, testing, and improving Python-based solutions.

Certifications & Achievements

- **Python for Data Science** — IBM
- **Machine Learning** — NPTEL
- **Data Science Bootcamp**
- **Statistics for Data Analysis with Python**
- **LeetCode**: Solved 1,000+ programming problems; earned 100 Days Badge 2025.
- **HackSpectra Hackathon**: 2nd Runner-Up in a 36-hour hackathon.
- **Google Student Ambassador 2025**: Selected as Google Student Ambassador representing Google on campus.

Additional Information

Areas of Interest: Software Engineering, Artificial Intelligence, Machine Learning, Backend Development, Data Analytics, Intelligent Systems

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Artificial Intelligence, Machine Learning

Languages: English, Hindi, Marathi
